

### **Strategic Plan and Deployment (6.2.1)**

During the active pandemic period as college was closed, the college authority seriously thought about the problem of education. In order to maintain the progress in learning level of students, online classes had been arranged on a regular basis with a new class-schedule. During this period students could not follow their library work and book were not available to them. As an effective measure towards their enrichment of knowledge, study materials and e-books had been provided to them. To maintain the regular evaluation of the students' achievement, online examinations were conducted.
